

Net S9

Continuously Operating Reference Station

- · Integrated professional OEM board, 220 channels
- · New design of aluminum alloy housing
- · IP67 industrial level standard
- · WIFI hotspot and Bluetooth connections
- \cdot STH, RINEX raw data storage to FTP server
- · eMMC technology for internal memory

Summary

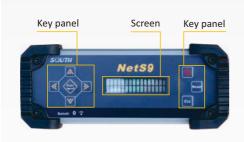

SOUTH NET S9 has integrated professional OEM board, 220 channels, compatible with all constellations.

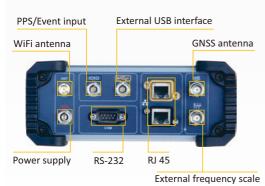

In addition, we greatly improve the operation experience and convenience for users with the additional function of WiFi hotspot and Bluetooth connections, thus, users are able to configure receiver with any mobile terminal. NET S9 is not only able to record STH file, but also support RINEX file storage.

10000mAh high capacity of battery builtin, can act as a primary power source or as an Uninterupted Power Supply (UPS) backup.

SOUTH NET S9 is using eMMC (Embeded Multi Media Card) technology for internal memory, faster and larger, stable and reliable. Moreover, NET S9 allows to connect to an external storage devices(maximum up to 1TB) via USB Host interface so that you don't have to worry about data storage.

User Interface

Distributor Info

CNICC	
GNSS	220 ahammala
Channels	220 channels
GPS	L1 C/A, L2E, L2C, L5
GLONASS BDS	L1 C/A, L1P, L2 C/A(GLONASS M only), L2P
GALILEO	B1, B2, B3 L1 BOC, E5A, E5B, E5AltBOC1
SBAS	L1 C/A, L5
Initialization	Typically<10 seconds
Initialization reliability	>99.9%
Accuracy	/33.370
Code differential GNSS	Horizontal: 25mm+1ppm RMS
positioning	Vertical: 50mm+1ppm RMS
SBAS positioning accuracy	<5m (typically) 3DRMS RMS
Static GNSS surveying	Horizontal: 2.5mm+0.5ppm RMS
Baseline<30km	Vertical: 5mm+0.5ppm RMS
Static GNSS surveying	Horizontal: 4mm+0.5ppm RMS
Baseline>30km	Vertical: 9mm+0.5ppm RMS
Real-time Kinematic	Horizontal: 10mm+1ppm RMS
Baseline<30km	Vertical: 20mm+1ppm RMS
Real-time Kinematic	Horizontal: 8mm+0.5ppm RMS
Network RTK	Vertical: 15mm+0.5ppm RMS
Data storage & output	
Data storage	8G (extend to 32G) internal memory is capable of cycle-
	recording raw data, adopts eMMC technology, stable and reliable
Positioning rate	1Hz, 2Hz, 5Hz, 10Hz, 20Hz, 50Hz(depend on setup option)
Reference output	CMR, CMR+, RTCM2.1, RTCM2.2, RTCM2.3, RTCM3.0,
Navigation output	RTCM3.1, RTCM3.2, sCMRx, RTCA, NOVATELX ASCII: NMEA-0183 GSV, AVR, RMC, HDT, VGK, ROT, GGK, GGA,
Navigation output	GSA, ZDA, VTG, GST, PJT, PJK, BPQ, GLL, GRS, GBS and binary
Data format	Support STH, RINEX2.x, RINEX3.x raw data storage
Data retrieval	Download form HTTP, FTP and USB copy
Data communication	Download form 111,111 and OSD copy
Ethernet protocol	Support TCP/IP, HTTP and NTRIP protocol
Serial port	Navigation data, static data and differential correction data
·	transmission, PPS-UTC
Bluetooth	Bluetooth 2.1 (Class2)+EDR, 2.4GHz
WiFi	2.4GHz, IEEE 802.11 b/g/n, allows to access built-in web user
	interface with the mobile terminal via its WIFI hotspot
Electrical	
Power supply	9V~28V DC input, 3 separate interfaces for power supply with
	over-voltage protection
Battery	over-voltage protection 10000mAh high capacity of battery built-in
Battery Battery life	over-voltage protection 10000mAh high capacity of battery built-in more than 15 hours for continuous work in default configuration
Battery Battery life Consumption	over-voltage protection 10000mAh high capacity of battery built-in
Battery Battery life Consumption User interface	over-voltage protection 10000mAh high capacity of battery built-in more than 15 hours for continuous work in default configuration Low power consumption 3.8W
Battery Battery life Consumption User interface Front panel	over-voltage protection 10000mAh high capacity of battery built-in more than 15 hours for continuous work in default configuration Low power consumption 3.8W Front panel display with buttons and LED screen
Battery Battery life Consumption User interface Front panel Network interface	over-voltage protection 10000mAh high capacity of battery built-in more than 15 hours for continuous work in default configuration Low power consumption 3.8W Front panel display with buttons and LED screen Two RJ45 network interface
Battery Battery life Consumption User interface Front panel Network interface RS-232 serial	over-voltage protection 10000mAh high capacity of battery built-in more than 15 hours for continuous work in default configuration Low power consumption 3.8W Front panel display with buttons and LED screen Two RJ45 network interface One RS-232 serial port(9-pin), data transmission
Battery Battery life Consumption User interface Front panel Network interface RS-232 serial USB	over-voltage protection 10000mAh high capacity of battery built-in more than 15 hours for continuous work in default configuration Low power consumption 3.8W Front panel display with buttons and LED screen Two RJ45 network interface One RS-232 serial port(9-pin), data transmission Two USB port, USB host and USB device
Battery Battery life Consumption User interface Front panel Network interface RS-232 serial USB Power interface	over-voltage protection 10000mAh high capacity of battery built-in more than 15 hours for continuous work in default configuration Low power consumption 3.8W Front panel display with buttons and LED screen Two RJ45 network interface One RS-232 serial port(9-pin), data transmission Two USB port, USB host and USB device Three separate power interface
Battery Battery life Consumption User interface Front panel Network interface RS-232 serial USB	over-voltage protection 10000mAh high capacity of battery built-in more than 15 hours for continuous work in default configuration Low power consumption 3.8W Front panel display with buttons and LED screen Two RJ45 network interface One RS-232 serial port(9-pin), data transmission Two USB port, USB host and USB device Three separate power interface One port supports PPS output, Event marker input, serial port and
Battery Battery life Consumption User interface Front panel Network interface RS-232 serial USB Power interface Multi-function interface	over-voltage protection 10000mAh high capacity of battery built-in more than 15 hours for continuous work in default configuration Low power consumption 3.8W Front panel display with buttons and LED screen Two RJ45 network interface One RS-232 serial port(9-pin), data transmission Two USB port, USB host and USB device Three separate power interface One port supports PPS output, Event marker input, serial port and power supply
Battery Battery life Consumption User interface Front panel Network interface RS-232 serial USB Power interface	over-voltage protection 10000mAh high capacity of battery built-in more than 15 hours for continuous work in default configuration Low power consumption 3.8W Front panel display with buttons and LED screen Two RJ45 network interface One RS-232 serial port(9-pin), data transmission Two USB port, USB host and USB device Three separate power interface One port supports PPS output, Event marker input, serial port and power supply One external frequency scale port, supports high-precision atomic
Battery Battery life Consumption User interface Front panel Network interface RS-232 serial USB Power interface Multi-function interface	over-voltage protection 10000mAh high capacity of battery built-in more than 15 hours for continuous work in default configuration Low power consumption 3.8W Front panel display with buttons and LED screen Two RJ45 network interface One RS-232 serial port(9-pin), data transmission Two USB port, USB host and USB device Three separate power interface One port supports PPS output, Event marker input, serial port and power supply One external frequency scale port, supports high-precision atomic clock connection
Battery Battery life Consumption User interface Front panel Network interface RS-232 serial USB Power interface Multi-function interface External frequency port	over-voltage protection 10000mAh high capacity of battery built-in more than 15 hours for continuous work in default configuration Low power consumption 3.8W Front panel display with buttons and LED screen Two RJ45 network interface One RS-232 serial port(9-pin), data transmission Two USB port, USB host and USB device Three separate power interface One port supports PPS output, Event marker input, serial port and power supply One external frequency scale port, supports high-precision atomic
Battery Battery life Consumption User interface Front panel Network interface RS-232 serial USB Power interface Multi-function interface External frequency port GPS Antenna interface	over-voltage protection 10000mAh high capacity of battery built-in more than 15 hours for continuous work in default configuration Low power consumption 3.8W Front panel display with buttons and LED screen Two RJ45 network interface One RS-232 serial port(9-pin), data transmission Two USB port, USB host and USB device Three separate power interface One port supports PPS output, Event marker input, serial port and power supply One external frequency scale port, supports high-precision atomic clock connection Choke ring antenna connection
Battery Battery life Consumption User interface Front panel Network interface RS-232 serial USB Power interface Multi-function interface External frequency port GPS Antenna interface WIFI antenna interface	over-voltage protection 10000mAh high capacity of battery built-in more than 15 hours for continuous work in default configuration Low power consumption 3.8W Front panel display with buttons and LED screen Two RJ45 network interface One RS-232 serial port(9-pin), data transmission Two USB port, USB host and USB device Three separate power interface One port supports PPS output, Event marker input, serial port and power supply One external frequency scale port, supports high-precision atomic clock connection Choke ring antenna connection
Battery Battery life Consumption User interface Front panel Network interface RS-232 serial USB Power interface Multi-function interface External frequency port GPS Antenna interface WIFI antenna interface Physical Dimension(L×W×H) Weight	over-voltage protection 10000mAh high capacity of battery built-in more than 15 hours for continuous work in default configuration Low power consumption 3.8W Front panel display with buttons and LED screen Two RJ45 network interface One RS-232 serial port(9-pin), data transmission Two USB port, USB host and USB device Three separate power interface One port supports PPS output, Event marker input, serial port and power supply One external frequency scale port, supports high-precision atomic clock connection Choke ring antenna connection Allows to connect a WIFI broadcast antenna 216mm×178mm×72mm 2.28kg
Battery Battery life Consumption User interface Front panel Network interface RS-232 serial USB Power interface Multi-function interface External frequency port GPS Antenna interface WIFI antenna interface Physical Dimension(L×W×H)	over-voltage protection 10000mAh high capacity of battery built-in more than 15 hours for continuous work in default configuration Low power consumption 3.8W Front panel display with buttons and LED screen Two RJ45 network interface One RS-232 serial port(9-pin), data transmission Two USB port, USB host and USB device Three separate power interface One port supports PPS output, Event marker input, serial port and power supply One external frequency scale port, supports high-precision atomic clock connection Choke ring antenna connection Allows to connect a WIFI broadcast antenna 216mm×178mm×72mm 2.28kg Rugged aluminum alloy housing plus plastic ring seal, designed to
Battery Battery life Consumption User interface Front panel Network interface RS-232 serial USB Power interface Multi-function interface External frequency port GPS Antenna interface WIFI antenna interface Physical Dimension(L×W×H) Weight Shock and vibration	over-voltage protection 10000mAh high capacity of battery built-in more than 15 hours for continuous work in default configuration Low power consumption 3.8W Front panel display with buttons and LED screen Two RJ45 network interface One RS-232 serial port(9-pin), data transmission Two USB port, USB host and USB device Three separate power interface One port supports PPS output, Event marker input, serial port and power supply One external frequency scale port, supports high-precision atomic clock connection Choke ring antenna connection Allows to connect a WIFI broadcast antenna 216mm×178mm×72mm 2.28kg Rugged aluminum alloy housing plus plastic ring seal, designed to survive a 2m drop onto concrete
Battery Battery life Consumption User interface Front panel Network interface RS-232 serial USB Power interface Multi-function interface External frequency port GPS Antenna interface WIFI antenna interface Physical Dimension(L×W×H) Weight	over-voltage protection 10000mAh high capacity of battery built-in more than 15 hours for continuous work in default configuration Low power consumption 3.8W Front panel display with buttons and LED screen Two RJ45 network interface One RS-232 serial port(9-pin), data transmission Two USB port, USB host and USB device Three separate power interface One port supports PPS output, Event marker input, serial port and power supply One external frequency scale port, supports high-precision atomic clock connection Choke ring antenna connection Allows to connect a WIFI broadcast antenna 216mm×178mm×72mm 2.28kg Rugged aluminum alloy housing plus plastic ring seal, designed to survive a 2m drop onto concrete IP67 level standard, protect against for temporary immersion to
Battery Battery life Consumption User interface Front panel Network interface RS-232 serial USB Power interface Multi-function interface External frequency port GPS Antenna interface WIFI antenna interface Physical Dimension(L×W×H) Weight Shock and vibration Waterproof/Dustproof	over-voltage protection 10000mAh high capacity of battery built-in more than 15 hours for continuous work in default configuration Low power consumption 3.8W Front panel display with buttons and LED screen Two RJ45 network interface One RS-232 serial port(9-pin), data transmission Two USB port, USB host and USB device Three separate power interface One port supports PPS output, Event marker input, serial port and power supply One external frequency scale port, supports high-precision atomic clock connection Choke ring antenna connection Allows to connect a WIFI broadcast antenna 216mm×178mm×72mm 2.28kg Rugged aluminum alloy housing plus plastic ring seal, designed to survive a 2m drop onto concrete
Battery Battery life Consumption User interface Front panel Network interface RS-232 serial USB Power interface Multi-function interface External frequency port GPS Antenna interface WIFI antenna interface Physical Dimension(L×W×H) Weight Shock and vibration Waterproof/Dustproof Environmental	over-voltage protection 10000mAh high capacity of battery built-in more than 15 hours for continuous work in default configuration Low power consumption 3.8W Front panel display with buttons and LED screen Two RJ45 network interface One RS-232 serial port(9-pin), data transmission Two USB port, USB host and USB device Three separate power interface One port supports PPS output, Event marker input, serial port and power supply One external frequency scale port, supports high-precision atomic clock connection Choke ring antenna connection Allows to connect a WIFI broadcast antenna 216mm×178mm×72mm 2.28kg Rugged aluminum alloy housing plus plastic ring seal, designed to survive a 2m drop onto concrete IP67 level standard, protect against for temporary immersion to a depth of 1m; Completely protect from dust
